-

Work Experience

Software Developer Intern | Tasmanian Finance Pty Ltd, Hobart Tasmania

March 2026 – May 2026

- Developed and deployed two full-stack web applications using WordPress, incorporating custom dashboards, authentication interfaces, subscription plans, and Google Maps integrated contact forms
- Built and iteratively improved two automated AI bots using Python and PHP, delivering features including a Hot List system, automated email queuing with draft management, PDF report generation with embedded Google Maps imagery, project sorting criteria, and admin dashboards
- Integrated and operated industry platforms including Cordell Connect, SalesTracker V2, HubSpot and processed and lodged real loan and refinance applications through SalesTrackker V2
- Managed domain registration, subdomain configuration, and business email setup via SiteGround and configured Microsoft Outlook for business communications
- Performed large scale data management tasks including consolidating and deduplicating Excel spreadsheets, filling missing data, and maintaining accurate property and contact datasets
- Conducted market research evaluating CRM platforms, construction data APIs, email marketing tools, and web hosting services to support strategic business decision-making
- Designed brand assets including logos and business cards for multiple business entities, created and managed company social media presence
- Collaborated with supervisors and external vendors including HubSpot, Cordell, and Webcentral and delivered SalesTracker V2 training to team members

Full Stack Developer | CHAD Care Services Pty Ltd Hobart Tasmania

May 2025 – Present | <https://chadcareservices.com.au/>

- Build and maintain custom WordPress sites with themes, plugins, and tailored functionality, configure and manage cPanel hosting and SSL certificates
- Implement SEO best practices and performance optimisation, design responsive UI/UX layouts using Figma
- Collaborate with stakeholders to translate business requirements into technical web solutions, managing the full development lifecycle from concept to deployment
- Provide ongoing IT support, troubleshooting, and system maintenance to ensure platform stability

IT Support & Operations | KIKO Clean Pty Ltd Perth WA

January 2024 – April 2025

- Managed Connecteam scheduling app, databases, and IT systems to improve operational efficiency
- Provided technical support for digital reporting, scheduling, and hardware/software issues; maintained records and prepared operational reports

RELEVANT UNIVERSITY PROJECTS

Full-Stack Developer | Web-Based Judging Engine

GoSHackathon Events, Western Australia | 2024

- Developed a real-time judging web application using MERN stack, featuring RESTful APIs, live data synchronisation supporting concurrent users, and a real-time analytics dashboard
- Designed scoring algorithms and collaborated with a cross-functional team to deliver a scalable, high-performance solution on schedule using Agile methodology and Git version control

Technologies Used: MongoDB, Express.js, React, Node.js, HTML5, CSS3, RESTful APIs, Agile Methodology
